# WHAT IS A CHAMBER OF COMMERCE?

Chambers of Commerce perform several functions for their members. They're networking forums – business clubs – facilitating the making of contacts and the sharing of knowledge and experience. They provide services for members such as training, mentor matching, events, learning opportunities and business support.

Members can offer discounted professional services to fellow members. The Chamber also gathers a collective business view with a view to influencing decision making that will affect that local business community.

---

We aim to energise the local economy by  
**supporting, connecting, protecting and educating**  
our local businesses

"There is an array of expert help and support available at Moray Chamber of Commerce and if they cannot assist directly, they have an excellent system of business support and development agencies."

**GEORGE GOUDSMIT**

FROM  
AES SOLAR
