

Scottish Highlands & Islands Renewable Energy Awards 2022

The third annual Scottish Highlands and Islands Renewable Energy Awards celebrates the very best of the region's green energy sector in a virtual event on Thursday 23rd June 2022.

The event showcases the achievements of the sector, while also recognising and rewarding the contribution that renewable energy makes to the Highlands and Islands economy and the businesses at the heart of it.

Renewable energy has a long history in the Highlands, Islands and Moray and these Awards shine a light on what is being achieved at present, and also what is possible in the future – recognising the excellence and evolution of the sector.

The awards and the Scottish Highlands and Islands Renewable Energy Conference (SHREC) which precedes it, are both supported by leading Scottish law firm Harper

Macleod, which founded SHREC in 2010, and Highland News & Media, publisher of the Executive and 18 newspaper titles across the Highlands and north-east Scotland.

The awards are **free** to enter and we have 10 categories to choose from including:

- Best Onshore Renewable Energy Project
- Best Offshore Renewable Energy Project
- Best Community Energy Project
- Best Public Sector Collaboration
- Most Promising individual
- Best Natural Capital Project
- Best Supplier to Offshore Renewable Energy Project
- Best Supplier to Onshore Renewable Energy Project
- Best Renewable Transaction of the Year
- Outstanding Achievement (picked by Judges)

Businesses, local community groups and projects are encouraged to enter and if they feel they fit into more than one category are welcomed to submit multiple entries.

To enter the awards follow this link to entry website <https://www.hnmedia.co.uk/renewable-energy-day/enter/>
